

Tromerco

Whitepaper

About

Tromerco was designed to provide a decentralized marketplace by connecting buyer and seller on the internet without a third party involved. The whitepaper describes how the ecosystem could help various individuals, groups, and non-organizations to facilitate payments, trading, and transfers without your need to sacrificing your privacy. In other words, it will be used for a good cause to help others uplift their lives.

It simply explains the benefits of blockchain technology for Tromerco to create a decentralized marketplace that can be used by TT for trading or exchanging goods, services, and crypto collectibles. Using our platform, not only does it gives us the opportunity to trade but also to earn a profit and reward.

Tromerco is a new generation decentralized marketplace & peer-to-peer ecosystem, unlike the traditional marketplace. It is the ecosystem of P2P connected nodes, there are no servers, and fully decentralized. Besides, it is also built on top of the Binance Smart Chain by using the smart contract to describe the business flow. It connects P2P with people around the world, trades new and used items without intermediaries, sends and receives funds effortlessly. We are living in the early ages of cryptocurrencies and blockchain technologies, much is done

and proved, but still mostly is undone like the early years of the Internet, We are living the beginning of the Internet 3.0. In this context it's the right time to redesign the global eCommerce marketplaces, bringing to online marketplaces those new decentralized technologies and payment systems.

The strong dependence between eBay and Paypal seems to be a big opportunity to introduce disruptive technology, as Bitcoin and blockchain ledgers in the peer-to-peer eCommerce space. In the same way, cryptocurrencies challenge Paypal's centralized payment service, so Tromerco is designed to be a decentralized alternative to eBay. Paypal allows trust in eBay's marketplace, by allowing buyers to have payment protection against fake sellers and seller scams.

Tromerco's proposition is to create trust in buyers using Tromerco Token that supports decentralized shared custody, this way we create an opportunity for the people to operate as independent escrow agents, giving a full commission to the independent escrow agent for their service of creating trust on Tromerco marketplace. We plan to serve as a traditional banking service and the digital assets economy. It is intended that users will be able to make a payment or transact through a wide range of channels, e-wallet, direct transfer, exchange to fiat currencies, withdraw from any ATM, and utilize for a marketplace.

Value

Industry 4.0 for the 21st Century: The not future-proof, but future-ready: No one desires to be a modern-day slave working for a non-transparent and unfavorable company. In contrast, we aim to bring people together as a peer-to-peer ecosystem eliminating middleman.

Decentralized Marketplace & Peer-to-peer Ecosystem utilizes blockchain technology and smart contract for exchange of goods, services and crypto collectibles.

Mission

We create a global and transparent digital sharing economy and enable the circulation of digital assets, thereby building a decentralized sharing economy and peer to peer ecosystem on a blockchain.

RoadMap

Phase 1

- Launch of website and social media channels.
- Launch of official whitepaper.
- Creation of an overarching marketing strategy and multiple partnerships with influencers.
- Conceptualization of Tromerce ecosystem.

Phase 2

- Launch of Tromerce Token and Tromerce V Token.
- Launch of Tromerce Blockchain Wallet.
- Launch of Tromerce Farm & Stake. Pancakeswap listing.
- Diversification into real-world use cases.

Phase 3

- Launch of Tromerce Collectible NFT. Bscscan Information Update.

- CoinGecko and CoinMarketCap listing.
- Strategy Partnerships with other companies.
- Crowdfunding registration and listing in major exchanges.

Phase 4

- Launch of Tromerce Marketplace.
- Launch of Tromerce Loan.
- Launch of Tromerce Lucky Ticket.
- Launch of Tromerce Governance.

Phase 5

- Launch of Tromerce Swap & Exchange.
- Launch of Tromerce Super Card.
- Launch of Tromerce Shipping & Delivery.
- Launch of Tromerce Point Of Sale.

Tromerco Ecosystem

Tromerco Token \$TT

Utility token that gives the Tromerco Community access to the Tromerco Ecosystem and its products and services.

Tromerco V Token \$TVT

Reward token that earns from yield farming, can be used to pay developer fees and receive rebates.

Tromerco Collectible NFT \$TCT

Non fungible token which is a new type of digital asset and ownership is recorded on a blockchain that lasts forever.

PancakeSwap

PancakeSwap is a Binance Smart Chain based Decentralized Exchange (DEX) for swapping BEP-20 tokens. To facilitate Tromerco's initial public offering, PancakeSwap offers our community the ability to exchange their BNB for Tromerco. In line with a pragmatic approach, Tromerco shall be listed into major exchanges in the near future.

Binance Smart Chain

The Binance Smart Chain (BSC) is a blockchain network that runs in parallel to the Binance Chain. In contrast to the Binance Chain, BSC features smart contract functionality and compatibility with the Ethereum Virtual Machine (EVM). The Binance Smart Chain offers

our community the added interoperability of facilitating their investments through Ethereum-based wallets, such as MetaMask. An added advantage of issuing Tromerco tokens on the BSC is that it offers our community an affordable blockchain experience through smaller transaction fees compared to the Ethereum Network.

Tromerco Marketplace

Third-party sellers sell their goods, services and crypto collectibles to buyers without a third party involved.

Tromerco Super Card

Hardware wallet crypto card with a built-in LCD display and personalized customer offers.

Tromerco Shipping & Delivery

Blockchain-based logistics system that can help reduce fraud and increase efficiency.

Tromerco Point Of Sale

Blockchain-based POS system where customers make a payment for products or services at the store.

Tromerco Swap & Exchange

Decentralized cryptocurrency exchanges built on blockchain technology are safer and more convenient than centralized exchanges.

Tromerce Stake & Farm

Stake or lending crypto assets in order to generate high returns or rewards in the form of additional crypto.

Tromerce Loan

Borrowers can take collateral-free loans from lenders and use the proceeds for whatever they want.

Tromerce Lucky Ticket

Participants stand a chance to win rewards or prizes solely based on the smart contract algorithm.

Tromerce Governance

Token holders influence decisions concerning the project such as proposing or deciding on new feature proposals.

Tokenomics

Tromerce Token Distribution

Total Supply	600,000,000
Token Sale	330,000,000
Team & Advisors	120,000,000
Bounty & Rewards	90,000,000
Partners	30,000,000
Reserved	30,000,000
